Features & Benefits

- **Fusion Welded 3 1/4" Frame & Sash** provides an impenetrable barrier to air & water penetration and the utmost in strength, stability, and rigidity.
- **Unique Cove Mold Design** offers a more traditional wood window exterior appearance.
- **Heavy Walled Construction** .070" walls are a full 12% thicker than most other windows and provide a better thermal barrier.
- **Virtually** any type of architectural window can be done.
- **Lifetime Warranty** on all vinyl frames.

The *right choice* to maximize protection from water and wind-borne debris, at a great value.
