

Concrete T-Rails & Forming

Typical Wall to Balcony Edge Assembly

Features and benefits of Aluminum T-Rail Concrete Form:

- aluminum surface gives a clean finished look
- aluminum form will never show brown rust stains typical of steel
- aluminum T-rail will maintain an attractive finish for many years
- aluminum T-rail becomes an integral form for the deck
- drip rail design directs water away from the balcony or sidewalk below
- light weight aluminum results in easier installation
- flexible extruded aluminum product allows faster set up for a pour
