**Features & Benefits**

- Can be mechanically fastened to the front of any gutter to give the canopy the popular Industrial Channel Fascia look.

- Approximately 2 pounds per foot lighter than a traditional 12” structural channel often used in this application.

- Adaptable to be used on any size gutter.

- Fasteners attach through the double wall in the back. No visible fasteners on the exposed canopy fascia.

- No welding required to attach fascia to gutter.

- No seams on the front of the canopy fascia.
