

Eastern Metal Supply

Custom Shapes to Your Specifications

Custom Aluminum Extrusions

SIZES:

- Circle size: .250" - 24"
- Lengths: up to 50'
- Weight: up to 95 lbs/ft

FINISHES:

- Mill, Painted, Anodized & Mechanically Enhanced

Eastern Metal Supply holds the country's largest private inventories for stocking customer's proprietary profiles to assist with JIT production needs.

Often these profiles are fabricated or machined by EMS to enable them to immediately go to the end use product assembly.

We can offer design tips that improve mill productivity and in turn reduce your overall costs due to improved tooling life and production rates.

Eastern Metal Supply leverages buying power combined with stocking programs to offer more value than buying direct. Mill minimums shipped to you over time improve cash flow and inventory turns.

STANDARD ALUMINUM EXTRUSIONS & SHEET:
